emphasizes the outstanding historical and artistic significance of Conrad's masterpiece. John Batchelor pursues the ways in which Conrad dramatizes with unprecedented fidelity a relationship between friends and also explores what for Conrad is clearly a central truth about the human condition: namely, the inalienable loneliness of man. The book provides a full discussion of the biographical and literary contexts of the novel, making use of the original manuscript and tracing the literary influences and sources of Conrad's writing. It also considers the novel's technical innovations, including Conrad's impressionism and its method of dramatization. Further chapters are devoted to a detailed commentary on the text, and the book concludes with a study of the novel's critical reception since its first publication. This volume will be essential reading for all students of literature and particularly for those with an interest in Conrad's place in the development of modern fiction.

Like the heroines and heroes whose stories she has made available to us through her careful editing, translation, and annotation, Tatar has performed a worthy feat in bringing together in *The Classic Fairy Tales* an invaluable selection of texts, critical essays, and a select bibliography. Fittingly, the central message which underlies the anthology is one of hope. Ailbhe Ní Giolla Chomhaill, University of Limerick, on the second edition: Tatar provides a selection of the most widely read and adapted traditional fairy tales along with some of their modern revisionings, accompanied by a balanced critical overview of scholarship in the field. She has successfully attempted to keep up with the ever-changing, growing field of fairy tale scholarship. Toni Thibodeaux, Columbia State Community College, on the second edition.

Discusses James's tales and provides a summary of his scholarship and criticism.

Fifty-two stories spanning Chekhov's career.

*Myths and Fairy Tales in Contemporary Women's Fiction* explores contemporary feminist, postmodernist, and postcolonial women writers' use and revisions of fairy tales and myths with close readings of works ranging from Margaret Atwood to Doris Lessing to Toni Morrison. Wilson examines meanings of myths and fairy tales as well as their varying techniques, images, intertexts, and genres. Although the writers represent several different nationalities and racial, ethnic, and cultural backgrounds, they employ a type of postcolonial literature that urges readers and societies beyond colonization. Wilson argues that the use of myths and fairy tales generally convey characters' transformation from alienation and symbolic amputation to greater consciousness, community, and wholeness, and it is in and through story that characters construct a hybrid way of establishing themselves in the larger world.
