this is the first survey of village institutions in egypt during this period and includes associations local officials banks record offices legal procedures festivals and monasteries the continuing and changing elements in the power relationships between central and regional authorities and the rural population contribute to village studies

first version written by three persons rather than four

the first comprehensive multidisciplinary analysis of rural cult centres in the hauran southern syria from the pre roman to the roman period 100 bc ad 300 this volume re evaluates the significance of contacts between the elite of the hauran and other cultures of the near east in shaping cult sites

table of contents

this book reassesses our understanding of rural landscapes in the near east between the first and fourth centuries ce previous histories of the roman near east have been influenced by an underlying set of assumptions based mainly on readings of classical literature regarding the impact of rome on this region to achieve these aims the book explores the nature of rural settlement in the near east during the period through an in depth examination of the material

evidence it also assesses current theories of roman imperialism and acculturation and the extent to which the rural environment of the near east was affected by such processes most work in this area is on the roman west and this book offers an eastern model using archaeological examples recent archaeological data is introduced through a series of thematic chapters that address some of the most important factors that have shaped the rural environment including the ways in which the countryside was used and exploited the changes triggered by the arrival of rome and the extent to which the ritual and funerary landscapes of the rural environment were transformed during this period taken all together this volume evaluates the impact of roman rule on the greek east as experienced in the realm of the rural offering a new framework by which comparisons with other areas of the eastern half of the roman empire and the western provinces can be made this book is for students and researchers interested in the process of imperialism and the archaeology of the near east and roman empire

this volume originates in a conference session that took place at the 2018 international council of archaeozoology conference in ankara turkey entitled humans and cattle interdisciplinary perspectives to an ancient relationship the aim of the session was to bring together zooarchaeologists and their colleagues from various other research fields working on human cattle interactions over time the contributions in this volume reflect well the breadth of work being undertaken on the ancient relationship between humans and cattle across the continents of europe africa and asia and from the late pleistocene to postmedieval period almost all involve the study of archaeological cattle remains and use different zooarchaeological methods but the combination of these approaches with that of ethnography isotopes and genetics is also featured author interview
